

Community Safety Partnership Report

Issue 27
March 2019

Community Safety

Community Safety is about protecting people's rights to live in confidence without fear for their own or other people's safety ensuring that people are safe from crime, disorder and danger and free from injury and harm and communities are socially cohesive and tolerant; are resilient and able to support individuals to take responsibility for their wellbeing

The Community Safety Partnership aims to improve community safety across Moray by identifying and addressing immediate concerns in order to protect the most vulnerable and at risk and be proactive to ensure that communities feel safe.

The CSP comprises of various Moray Council services, Police Scotland, Scottish Fire and Rescue Service, NHS Grampian, tsiMORAY and Registered Social Landlords

FRAUD

If any Community Councils are sending out news letters can they include a reminder to people to be wary of phone calls from persons purporting to be from well-known companies such as BT or Microsoft offering to "sort" their computer problems out. Similar fraudsters will also claim to be from the bank. They will then manipulate the householder in to providing their bank details to pay for the service or offer to move money from accounts to other accounts "protect it". **Never** give out account or card details over the phone. Always check by calling the bank yourselves and make sure a dial tone is heard first when you call and that the fraudster has not stayed on the line. Likewise be aware that there are emails that seem to be from companies including HMRC that are in fact frauds and when you click on them will re-route you to another email site. Check that you are on the actual company website and if unsure do not transfer or exchange any details instead contact the company direct and Google the correct phone number, not one that may be on the email. These frauds are not common in this area but this is general safety advice.

Vishing Frauds

An alert issued by Police Scotland states that there has been a noticeable increase in vishing frauds against the elderly.

Vishing is defined as "the fraudulent practice of making phone calls or leaving voice messages purporting to be from reputable companies in order to induce individuals to reveal personal information, such as bank details or credit card numbers.

In February, neighbour disputes and noise issues have continued to be the most complained about issues to the Community Safety Team followed closely by environmental issues and abandoned vehicles.

Community Justice

Community Justice Scotland's 'Second Chancers' campaign was recently launched and provides information about how communities across Scotland are benefiting from Community Justice.

The Harvest Reaper restoration project at Burghead is one such initiative and features on the Second Chancers website at

www.secondchancers.tv

Entitled 'The Times They Are A-Changing' an audio article gives information about the project and trailers are being shown in cinemas including the Moray Playhouse

Scottish Fire and Rescue Service

Back in October 2017 the Scottish Fire and Rescue Service launched the Community Asset Register (CAR).

Essentially this is a register of volunteers who have a particular asset or skill which they feel could be used to support emergency services and responders at an incident.

Examples include someone with a boat who could be called in times of flooding to assist evacuate people from houses to a place of safety. Similarly someone with a 4X4 may be used in times of severe snow to transport vulnerable people to a community hall.

Further information about the CAR can be found on the link below:

[http://www.firescotland.gov.uk/news-campaigns/news/2017/10/sfrs-launches-community-asset-register-\(1\).aspx](http://www.firescotland.gov.uk/news-campaigns/news/2017/10/sfrs-launches-community-asset-register-(1).aspx)

Unfortunately, it is impossible to gauge how often a volunteer will be requested.

Mobilisations can be determined by severe weather, a specific type of asset/skill required for the incident, the emergency services availability and resources in the area and the location of the volunteer.

It must be stressed that even when someone has registered, they are under no obligation to mobilise when they are called by the Operations Control centre.

For anyone to register an interest and request a form they would be required to email:

SFRS.CommunityAssetRegister@firescotland.gov.uk and a registration form will be sent to be completed along with guidelines on how to complete the registration process.
